```
C                          G
What makes it easy to treat people bad?
Am                               C
Some things you say and you can't take 'em back
F                      C
What makes it easy to run from the past
        G
like a child runs from the dark?
```

Verse 2

```
C                          G
Which is the poison and which is the wine?
    Am                          C
The scent and the colors are so much alike
      F                       C
And how much of each will it take to decide,
          G
when your at the table alone?
```

when you know that you don't care?

And still be walking away
